APPAM Communities
Future of Families & Child Wellbeing Study (FFCWS) Data Users
This community meeting is an opportunity for researchers who are currently working with, or interested in working with, this rich dataset to gather and discuss their work, share advice for working with the dataset, and to hear updates from the FFCWS data support team.

Please join us for this opportunity to network and have your questions answered by members of the study team and experienced data users.

Our team will also share updates about our current wave of data collection, around the 22nd birthdays of our focal children, and what to expect in the forthcoming data release!

Please note that not all presentations using FFCWS may be listed. Contact ffdata@princeton.edu to share any additional presentations. Visit ffws.princeton.edu for more information.
